AI4GreenBus Project Conference

Tuesday, 24.11.2026
09:00 AM – 01:00 PM

Startup Center FH Aachen
Eupener Straße 70, 52066 Aachen, Germany

INVITATION

The digital and green transformation is reshaping the way businesses operate. How can **Artificial Intelligence (AI)** support the development of more sustainable and circular business models?

The **AI4GreenBus project team** warmly invites project partners, companies, students, educators, researchers and other interested participants to join the **AI4GreenBus Project Conference in Aachen**.

The conference will provide an opportunity to discover the latest project results, exchange ideas with the project team and discuss how AI can contribute to sustainable business innovation and education.

Tuesday, 24 November 2026
09:00 AM - 01:00 PM

Startup Center FH Aachen
Eupener Straße 70, 52066 Aachen, Germany

Agenda:

- Welcome & Introduction
- Keynote
- Methodology Development Results
- Presentation of the four core pillars: Sustainable Business Models, AI in Innovation, Innovation in Teaching, and Metaverse as an Educational Space
- Q&A and discussion
- Insights into practice-oriented student work

Registration:

Participation is open to external guests, but **seats are limited**.

Please register by **6 November 2026** via email to: nawrath@fh-aachen.de

We look forward to welcoming you to Aachen and to an inspiring exchange on AI, sustainability and the future of business innovation!
